

Our Clinics are Going Cashless

Effective April 1, 2024

Starting April 1, 2024, Kelsey-Seybold Clinic will no longer accept cash or checks for in-office payments. Clinics will accept credit and debit cards, HSA cards, FSA cards, and digital payment such as Apple Pay.

Onsite Kelsey Pharmacies will accept card or digital payments, as well as cash, but will no longer accept checks as of April 1, 2024.

What this transition to digital-only forms of payment means to you, our valued KelseyCare Advantage members:

Faster

Cashless payments mean a more efficient check-in process and less time spent at the check-in desk. Plus, you also have the option to check-in for your appointment and pay your copay all from your phone using the MyKelsey app, making the process even faster. The pre-check-in option is available on the MyKelsey App.

More Secure

Credit card and debit card payments made in person are considered the most secure and safe payment methods. The unique chip technology on your card encrypts information to help eliminate fraud. You can rest assured that your private health information remains safe, and you'll have an automatic record of your payment that you can view in your MyKelseyOnline account.

If you prefer, you can pay by check or money order via regular mail after receiving your billing statement with your outstanding balance. The statement will contain the return address to mail payments to and a phone number to call if you have any questions.

We're excited about this evolution in our payment process. It will result in an overall better, more efficient experience for patients over time. We know this may be a change for many of our members and patients but our customer service and front desk representatives are here to help.

Thank you for being a valued KelseyCare Advantage member. Stay tuned for more information about cashless and checkless transactions at Kelsey-Seybold in the near future.
