2011
Abridged
Formulary

KelseyCare Advantage Preferred (HMO) 2011 Formulary (List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

This document includes KelseyCare Advantage's partial formulary as of January 1, 2011. For a complete, updated formulary, please call 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call 1-888-206-8041.

Beneficiaries must use network pharmacies to access their prescription drug benefit. Benefits, formulary, pharmacy network, premium and/or copayments/coinsurance may change on January 1, 2012.

KelseyCare Advantage is a Medicare Advantage organization with a Medicare contract. To receive this material in an alternate format or language, such as Spanish, please call our Member Services Department at 713-442-CARE (713-442-2273) or toll free at 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call TTY/TDD: 1-888-206-8041.

Formulary File Submission ID 00011444, Version 8

What is the KelseyCare Advantage formulary?

A formulary is a list of covered drugs selected by KelseyCare Advantage in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. KelseyCare Advantage will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a KelseyCare Advantage network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

This document is a partial formulary and includes only some of the drugs covered by KelseyCare Advantage. For a complete listing of all prescription drugs covered by KelseyCare Advantage, please call 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call 1-888-206-8041.

Can the formulary change?

Generally, if you are taking a drug on our 2011 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2011 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of January 1, 2011. To get updated information about the drugs covered by KelseyCare Advantage, please call Member Services at 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call 1-888-206-8041.

To review formulary changes during the year, you can request a copy of the Formulary Addendum to be mailed to your home, please call Member Services at 713-442-9550 or 1-866-534-0554, 8:00 a.m. to 8:00 p.m., 7 days a week. TTY/TDD users should call 1-866-302-9336.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 9. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page 9. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 40. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

KelseyCare Advantage covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** KelseyCare Advantage requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from KelseyCare Advantage before you fill your prescriptions. If you don't get approval, KelseyCare Advantage may not cover the drug.
- **Quantity Limits:** For certain drugs, KelseyCare Advantage limits the amount of the drug that KelseyCare Advantage will cover. For example, KelseyCare Advantage provides 30 tablets per prescription for Crestor. This may be in addition to a standard one month or three-month supply.
- **Step Therapy:** In some cases, KelseyCare Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, KelseyCare Advantage may not cover Drug B unless you try Drug A first. If Drug A does not work for you, KelseyCare Advantage will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 9. You can also get more information about the restrictions applied to specific covered drugs by calling Member Services at 713-442-9550 or 1-866-534-0554, 8:00 a.m. to 8:00 p.m., 7 days a week. TTY/TTD users should call 1-866-302-9336.

You can ask KelseyCare Advantage to make an exception to these restrictions or limits. See the section, “How do I request an exception to the KelseyCare Advantage’s formulary?” on page 4 for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this list of covered drugs, you should first contact Member Services and ask if your drug is covered. This document includes only a partial list of covered drugs, so KelseyCare Advantage may cover your drug. You can contact Member Services at 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call 1-888-206-8041.

If you learn that KelseyCare Advantage does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by KelseyCare Advantage. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by KelseyCare Advantage.
- You can ask KelseyCare Advantage to make an exception and cover your drug. See below for information about how to request an exception

How do I request an exception to KelseyCare Advantage’s formulary?

You can ask KelseyCare Advantage to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, KelseyCare Advantage limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.
- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our non-preferred tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the preferred tier instead. This would lower the amount you must pay for your drug. Please note, if we grant your request to cover a drug that is not on our formulary, you may not ask us to provide a higher level of coverage for the drug. Also, you may not ask us to provide a higher level of coverage for drugs that are in the specialty tier.

Generally, KelseyCare Advantage will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you are requesting a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber's or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescriber's or prescribing physician's supporting statement.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will cover a temporary 31-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Unexpected medication changes due to level-of-care changes

When you transfer from one treatment setting to another, such as moving from an inpatient hospital setting to home, it is called a level-of-care change. These types of changes often do not leave you enough time to determine if a new prescription contains a drug that is on the plan formulary. In these unexpected situations, KelseyCare Advantage will cover a temporary 30-day transition supply (unless you have a prescription written for fewer days). If your level-of-care change involves moving to a long-term care facility and a new drug is prescribed, the plan covers a temporary 31-day transition supply (unless you have a prescription written for fewer days).

For more information

For more detailed information about your KelseyCare Advantage prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about KelseyCare Advantage, please call Member Services at 1-866-589-5222, 24 hours a day, seven days a week. TTY/TDD users should call 1-888-206-8041.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit www.medicare.gov.

KelseyCare Advantage's Formulary

The abridged formulary that begins on page 9 provides coverage information about some of the drugs covered by KelseyCare Advantage. If you have trouble finding your drug in the list, turn to the Index that begins on page 40. Remember: This is only a partial list of drugs covered by KelseyCare Advantage. If your prescription is not in this partial formulary, please call Member Services at 1-866-589-5222, 24 hours a day, 7 days a week. TTY/TDD users should call 1-888-206-8041 for additional help.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., NEXIUM) and generic drugs are listed in lower-case italics (e.g., *omeprazole*).

The information in the Notes column tells you if KelseyCare Advantage has any special requirements for coverage of your drug.

The abbreviations represent special drug requirements, limits that are described on page 3, and other informational abbreviation descriptions.

GAP = We provide coverage of these prescription drugs in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage. Copayments may differ depending on which network pharmacy fills your prescription.

LA= Limited Access

PA = Prior Authorization Required

QL = Quantity Limits Apply

ST = Step Therapy Applies

Drugs indicated with a "LA" have limited distribution. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Member Services at 1-866-589-5222, 24 hours a day, 7 days a week. TTY/TDD users should call 1-888-206-8041.

Next to the drug name column is a column labeled Tier. This identifies in which tier the drug is assigned and will determine the amount you pay for your prescription.

The amount you pay for your prescriptions depends on the medication's tier. Every drug on the plan's Drug List is in one of five cost-sharing tiers. In general, the higher cost-sharing tier number, the higher your cost for the drug:

Cost Sharing Tier	Drugs included in tier
Tier 1 (lowest)	Preferred Generic
Tier 2	Non-Preferred Generic
Tier 3	Preferred Brand
Tier 4	Non-Preferred Brand
Tier 5 (highest)	Specialty

Tier 1 – Preferred Generic

Lowest cost tier – Generic drugs have the same active ingredient formula as a brand name drug. Generic drugs usually cost less than brand name drugs and are rated by the Food and Drug Administration (FDA) to be safe and effective as brand name drugs. Not all generic drugs on the drug list (formulary) are included in this tier.

Tier 2 – Non-Preferred Generic

Middle cost tier – includes non-preferred generics that are high-cost generic drugs and/or generic drugs only available from one manufacturer.

Tier 3 – Preferred Brand

Middle cost tier – includes preferred brand drugs.

Tier 4 – Non-Preferred Brand

Higher cost tier – includes non-preferred brand drugs.

Tier 5 – Specialty

Highest cost tier – contains very high cost brand and generic prescription drugs that may require special handling and/or close monitoring. Specialty drugs may be brand or generic.

The copays/coinsurance are:

Tier	30-day Supply	90-day Supply
1	\$10	\$20
2	\$15	\$30
3	\$15	\$30
4	\$30	\$60
5	\$30	\$60
